

The **TURNER & COATES** Global Examiner

Running the rule over international business

since 1880

Issue 6 - May 16

Why Turner & Coates? It's all in the detail!

ESTABLISHED in 1880, Turner & Coates has been operating at the vanguard of a dynamic and ever-evolving worldwide industry, for more than 130 years.

From our initial overseas project way back in 1886, which saw us contracted to oversee the building of a Gas Works in Victoria, South East Australia, we have expanded our global reach significantly, to the point where we now offer a full range of inspection, expediting and supplier assurance services to a growing client base in more than 40 countries spanning 5 different continents.

Our highly experienced team of specialist consultants, engineers and auditors are located all over the world, and are comfortable working across a broad and

diverse range of business sectors and industries, from petro-chemicals to pulp & paper manufacturing. This enables us to be your independent eyes and ears, wherever your contracted suppliers, service providers or manufacturers may be located.

Our many years in business have seen us adapt and change, to anticipate and react to developments and updates that affect the global marketplace. However, every member of the Turner & Coates family sees excellence as a timeless and demonstrable business attribute, and we believe our comprehensive service portfolio to be unique and unparalleled, both in its scope and its application.

To this end, we also benefit from over three decades of genuine and proven expertise in delivering value-added Management Consultancy services to many of our highly valued clients worldwide.

Furthermore, our experience and success in this key area is not confined to mere

ISO 9001 auditing, but can also take in auditing against other internationally recognised safety standards, such as ISO 14001 (Environmental Responsibility), ISO 50001 (Energy Management Systems), OHSAS 18001 (Occupational Health & Safety), FAMI-QS (Animal Feed Additives & Pre-mixtures) and RCMS/RC14001 (Responsible Care Management for the Petro-chemical Industry).

Each one of these standards has been established and developed to help you to transform your day-to-day business practices and maximise the potential of your company or organisation.

Turner & Coates also provides the tried-and-tested solution when it comes to independent, impartial and unerringly thorough internal auditing. The fact that auditing is our everyday job means that our team of auditors have honed their skills and you will get a detailed and effective audit, with excellent advice and recommendations for improvement. This is all included in the detailed report we provide following the audit.

Coasting it for the Christie

THE all-action, worldwide nature of his job sees our Quality Systems Manager, Jason Coulborn rack up literally thousands of air miles on behalf of our global client base.

However his travels - and indeed travails - will see keen cyclist Jason journey a little closer to home this coming July, as he resorts to making the mere 60-mile road trip from his native Manchester to Blackpool's South Promenade, propelled solely by his own considerable pedal power and some good, old-fashioned Mancunian grit, all in the name of a very worthwhile local cause.

Jason is being sponsored to complete the gruelling 'Christie Bike Ride' by his friends, colleagues and clients alike. To show your support and make a pledge, see www.justgiving.com/fundraising/Jason-Coulborn. Your donation will help Turner & Coates play our part in supporting the fantastic work the Christie NHS Foundation Trust does every day, in helping to treat over 40,000 cancer patients per year.

August will also see the intrepid Jason compete in the 'Tough Mudder' endurance event in Skipton, North Yorkshire. This will test his physical strength and stamina to their absolute limits over a punishing, obstacle-strewn 5-mile course through rolling hills, dark woodlands, deep bogs and swamp-like sludge. Although this event isn't a charity race *per se*, you can still make your pledge of sponsorship to Jason, by visiting the same link shown opposite. All donations will again go to the Christie Foundation.

"I'm really looking forward to participating in both events," says Jason, who regularly makes the 7-mile journey into work on two wheels, when he is not abroad on business. "It's a charity that is very close to my heart."
