

The **TURNER & COATES** 14 YEARS OF EXCELLENCE AS STANDARD **Global Examiner**

Running the rule over domestic and international business since 1880!

Issue 25 - Sept'. 2020

Making a move to protect our staff ... and safeguard our future!

Regardless of the industry in which we operate, we have all had to re-evaluate our day-to-day business practices and re-examine our established procedures, in order to stay ahead of the curve with regard to sustainable trading, staff safety and customer service throughout the ongoing COVID-19 pandemic.

With these overriding objectives in mind, we at Turner & Coates have decided it necessary to once again move premises to a highly COVID-19 secure location at **Europa House, Barcroft Street, Bury Greater Manchester**... just 10 miles from our former premises in the city of Salford. Please note that our contact details will remain the same.

Our new high-tech, contemporary serviced offices equip us with a modern and flexible working space, allowing Turner & Coates to continue providing an uninterrupted level of service to our growing worldwide customer base during the Coronavirus.

What's more, the raft of key safety measures put in place by the experienced Management Team at Europa House, make it a suitable and practical new base for our business, as we look to adapt and respond to the changes to domestic and global trade made by the continued presence of COVID-19.

Europa House has worked hard to prepare a safe and secure business environment for companies like ours, in line with UK Government directives, local health authority advice and the latest guidelines set out by the World Health Organisation (WHO).

This includes the implementation of a host of measures brought in to support effective social distancing within the building, such as increased signage and revised room layouts to facilitate and accommodate greater individual space.

As regards sanitisation and hygiene, the cleaning specifications across the building have been upscaled to include high-frequency touch points such as door handles, elevator buttons and so on. What's more, our staff will be prepared with PPE, when required, and there are Sanitising Stations located throughout the building. It is important to note, however, that - should you wish to visit us at our new premises - this will

continue to be at your own risk, and you will need to provide your own PPE.

Furthermore, our new offices benefit from convenient transport links, situated less than two minutes from Bury Interchange and the Metrolink tram station, both in the town centre, and less than two miles from the key M66 and M60 motorways, leading to Manchester International Airport.

"I am very proud of my team at Turner & Coates, as they have all coped so well and learned to adapt so quickly and efficiently in the face of the ongoing situation regarding COVID-19," says our company MD, Neil Coulborn.

"Now, as we look to take our first steps back to working together in an office environment, I am satisfied that Europa House is the right choice of location for our business, and I am very excited to be returning to co-working and welcoming visits from our domestic and international clients."
