

The **TURNER & COATES** 14^{OVER} YEARS OF EXCELLENCE AS STANDARD **Global Examiner**

Running the rule over domestic and international business since 1880!

Issue 30 - Dec. 2021

Genuine worldwide inspection & expediting in experienced hands

Reaching out across the globe: We're emerging from the COVID-19 pandemic stronger and more resilient than ever before, with experienced industry professionals in more than 50 countries worldwide, on hand to act as your independent eyes and ears when it comes to inspection and expediting.

THE world is becoming an ever smaller place. Particularly when it comes to doing business.

More and more companies and organisations within the world's primary and secondary industry sectors - from pulp & paper to petro-chemical processing - are casting their nets further afield when outsourcing equipment, goods and even services.

For more than 135 years, we have been offering a truly international service to our clients, beginning with our first 'global' project overseeing the construction of a Gas Works in Victoria, South East Australia in 1886.

Today, we benefit from a growing team of dedicated and experienced specialist consultants, engineers and auditors located in over 50 countries worldwide from Sweden

to South Korea, from Chile to China and from Poland to Peru.

The ongoing effects of the COVID-19 pandemic are being felt by us all... and our businesses, no matter where we are in the world. Even with an increasing number of nations re-opening for business, many travel restrictions remain in place.

As one of our industry's oldest and safest pair of hands, we've continued to think quickly and

creatively around this global business issue, by recruiting and providing more and more 'native', fully qualified personnel in key nations, continents and sub-continents such as the US, Southeast Asia and Central America.

Likewise, we will continue to offer a focused suite of virtual and remote support services, all coordinated

from our HQ in Manchester, England, including supplier evaluation, site inspection and management systems auditing.

Our innovative, blended approach - combining traditional on-site activity with remote ICT processes - has helped our clients and ourselves to maximise efficiencies and opportunities throughout this unprecedented time.

And, notwithstanding the ongoing situation regarding COVID-19, we have still managed to grow the global reach of our physical, on-site services, with recent inspection and expediting visits undertaken in countries such as Egypt, Estonia and Thailand.

As a company, we've always been ready to react swiftly and decisively to changes in a fast-moving worldwide marketplace. It's the reason why we've been in the business for so long, and what keeps a growing list of global companies calling on our unrivalled service package.

Merry Christmas and a Happy New Year from us all!

Please note our last working day will be Thursday 23rd December 2021, re-opening for business on Tuesday 4th January 2022.

OFFICIAL NOTICE: Please note that our long-serving fax number (UK) +44 (0) 845 890 9871 has now been retired from use.
