

# The **TURNER & COATES** 14<sup>OVER</sup> YEARS OF EXCELLENCE AS STANDARD **Global Examiner**

Running the rule over domestic and international business since 1880!

Issue 32 - May '22

## It's all in the detail... at Turner & Coates

**Going over the finer points:** we leave no stone unturned to provide you with the very best possible inspection, expediting, auditing and QM Services.

Turner & Coates has been keeping a close eye on global business efficiency for more than 140 years, thanks to our high quality, detailed inspection, expediting, auditing and quality management (QM) systems and services.

Since our very first overseas project overseeing the construction of a Gas Works in South East Australia in 1886, the Turner & Coates network of worldwide inspectors and engineers has spread right across the globe.

Nearly a century and a half later, and our growing team of dedicated, highly experienced specialist consultants, engineers and auditors are now located in over 50 countries worldwide, from Sweden to South Korea and from Poland to Peru. In addition to this, we cover all of the UK and Ireland from our HQ in Bury, Greater Manchester, England.

Furthermore, they are comfortable working across a broad and diverse range of business sectors and industries, from petro-chemicals to pulp & paper manufacturing. This enables us to be your independent eyes and ears, wherever your contracted suppliers, service providers or manufacturers may be located.

### Inspection & Expediting

We have been at the leading edge of international and domestic inspection and expediting for more than 130 years, and we supply a full portfolio of high quality services, from process analysis to non-destructive testing and full procedure reviews, including welder qualifications.

To help you retain control of remote suppliers and manufacturers, we also offer witness testing, documentation review and pre-shipment inspection services. These are undertaken at supplier facilities worldwide.

### QM Systems

We're also one of the industry's most dedicated and experienced quality management service providers, here at Turner & Coates, and we're particularly well-versed in the precise implementation of ISO 9001 certification standards.

ISO 9001 helps businesses achieve improved customer satisfaction,

staff motivation and continuous development. We also benefit from proven expertise in implementing ISO 14001 (Environmental Responsibility), ISO 45001 (Health & Safety), ISO 50001 (Energy Efficiency), FAMI-QS (Animal Feed Safety), RCMS and RC14001 (Environmental Standards for the Worldwide Chemical Industry).

### Internal Auditing

Likewise, we're professional auditors across all internationally recognised Quality Management systems.

Our experience and longevity in this highly specialised field has seen us visit many different companies, in an internal auditing capacity, across a wide variety of industries. This has enabled us to refine - and expand upon - our ideas and systems for improving and streamlining the everyday processes and procedures of your business or organisation.
